

First HTML Homework
Assignment 1
CS403 section 2
Due: Sept 13, 2011

Write the HTML code necessary to reproduce the Web page that appears on the backside. You must use the following tags (and ONLY those tags):

HTML, HEAD, BODY, TITLE, P, OL, UL, LI, I, B, EM, H1, H2, H3, H5, HR

It's easy to use `` where it isn't needed. Remember, elements like H1 and H2 appear bold. Also, near the top of the page, add the following comment, replacing my name with yours.

```
<!-- Author: Jim Weiner -->
```

I always put it right after the `<head>`, but it doesn't have to be there.

Once you are done, print out the source HTML file and hand that in. It must be a legal HTML page, so watch your start and end tags. You don't need to print the page from the browser, just the HTML source file from Notepad or equivalent text editor.

Annual Bluegrass Festival - Cape Neddick

Annual Bluegrass Festival - Cape ...
