

Form Homework  
 Assignment 6  
 CS403 section 2  
 Due: Nov 29, 2011

In this assignment you will create an HTML form that submits query data to the Choice Hotels web server (do NOT use CSS)

**Create an HTML Form** that appears EXACTLY as shown below. You must use the names and values shown otherwise it won't be able to communicate correctly with the server at <http://www.choicehotels.com>.

You **MUST** use the following names and values for each form element.

| FORM ELEMENT | NAME      | VALUE(S)  |
|--------------|-----------|---|
| CITY         | placename | <i>(Text Input – so there is no set value)</i>      |
| STATE        | state     | NH (New Hampshire)<br>NY (New York)<br>VT (Vermont) |
| ARRIVAL DAY  | day       | <i>(Text Input – so there is no set value)</i>      |

|                 |              |  |
|-----------------|--------------|--|
| ARRIVAL MONTH   | month        | 4 (April)<br>5 (May)<br>6 (June)               |
| DEPARTURE DAY   | depart_day   | <i>(Text Input – so there is no set value)</i> |
| DEPARTURE MONTH | depart_month | 4 (April)<br>5 (May)<br>6 (June)               |
| ROOMS           | nrooms       | 1 (1 Room)<br>2 (2 Rooms)                      |
| AIRPORT SHUTTLE | amenity      | ARPSHTL  |
| POOL            | amenity      | POOL   |
| BEACH           | amenity      | BEACH  |

In addition to these fields, there is a single field not visible on the form whose name is “placetype” and whose value is “city”.

The address for the ACTION is **<http://www.choicehotels.com/ires/en-US/html/QuickSearch>**

Hint: The content of a <caption> element can be an image (found at:  
[http://pubpages.unh.edu/~cs403s2/images/logo\\_choice.gif](http://pubpages.unh.edu/~cs403s2/images/logo_choice.gif))

As always, your HTML file should include your name (<!-- Author: Your name -->) and be printed out from Notepad (or its equivalent). You don't need to email a copy for this assignment.
