

Second CSS Homework
Assignment 7
CS403 section 2
Due: Dec 6, 2011

This assignment is an exercise in using CSS. Focus will be on the following CSS properties – structural selectors, :before pseudo-elements, counters and background images.

You are given the <body> of the page and WITHOUT changing the contents of the body you need to add CSS to cause the browser to render the page as shown below:

Seacoast Brewers Guild

The partial page and needed images can be found at:
<http://pubpages.unh.edu/~cs403s2/events>.

Don't worry that there isn't a submit button on the form. How the check would be submitted is beyond the scope of this class.

Also, near the top of each page, add the following comment, replacing my name with yours.

```
<!-- Author: Jim Weiner -->
```

Once you are done, print out each source HTML file and hand that in. It must be a legal HTML page, so watch your start and end tags. You don't need to print the page from the browser, just the HTML source file from Notepad, TextEdit or your favorite text editor.
